Statement of comprehensive income	6
Statement of financial position	7
Statement of changes in equity	8
Statement of cash flows	9
Notes to the financial statements	10
Directors' declaration	27
Independent auditor's report to the unitholders	28

## Directors' report

The directors of Pendal Fund Services Limited (a wholly owned subsidiary of Perpetual Limited), the Responsible Entity of Pendal Pure Alpha Fixed Income Fund (the Scheme), present their report together with the financial statements of the Scheme for the period ended from 1 July 2024 to 12 December 2024 and the auditor's report thereon.

### Responsible Entity

The Responsible Entity of Pendal Pure Alpha Fixed Income Fund is Pendal Fund Services Limited (ABN 13 161 249 332). The Responsible Entity's registered office is Level 18, 123 Pitt Street, Sydney, NSW 2000.

### Directors

The following persons held office as directors of Pendal Fund Services Limited during the period or since the end of the period and up to the date of this report:

Amanda Apted (appointed 31 August 2023)  
James MacNevin (appointed 1 January 2025)  
Anthony Serhan (appointed 6 December 2019)  
Simone Mosse (appointed 23 January 2023, resigned 31 December 2024)

### Principal activities

The Scheme was terminated on 5 December 2024 with the redemption of all units of the Scheme effective on that date and the payment of the final return of capital on 12 December 2024, completing the wind up of the Scheme.

Prior to the termination, the principal activity of the Scheme was to provide unitholders with an actively managed portfolio of fixed interest, credit and foreign exchange markets.

The Scheme did not have any employees during the period.

### Review and results of operations

Prior to the termination, the Scheme's assets were invested in accordance with the investment objective and guidelines as set out in the governing documents of the Scheme and in accordance with the provisions of the Scheme's Constitution.

The performance of the Scheme, as represented by the results of its operations, was as follows:

	<b>Period 1 July 2024 to 12 December 2024</b>	<b>Year ended 30 June 2024</b>
Profit/(loss) (\$)	<u>1,057,707</u>	<u>1,125,527</u>
Distributions paid and payable (\$)	<u>430,733</u>	<u>1,005,037</u>
Distributions (cents per unit)	<u>1.140</u>	<u>2.685</u>

## **Directors' report (continued)**

### **Interests in the Scheme**

The movement in units on issue in the Scheme during the period is disclosed in note 5 to the financial statements.

The value of the Scheme's assets and liabilities is nil as disclosed in the statement of financial position due to the termination of the Scheme.

### **Significant changes in the state of affairs**

All units of the Scheme were redeemed for effective date 5 December 2024 and the final return of capital was paid on 12 December 2024. The Scheme was effectively wound up on 12 December 2024.

### **Matters subsequent to the end of the financial period**

No matter or circumstance has arisen since 12 December 2024.

### **Likely developments and expected results of operations**

The Scheme was wound up on 12 December 2024.

### **Environmental regulation**

The operations of the Scheme are not subject to any particular or significant environmental regulations under a law of the Commonwealth, or of a State or Territory.

### **Fees paid to the Responsible Entity or its related parties**

Fees paid to the Responsible Entity and its related parties out of Scheme property during the period are disclosed in note 12 to the financial statements.

No fees were paid out of Scheme property to the directors of the Responsible Entity during the period.

### **Indemnity and insurance of officers and auditors**

No insurance premiums are paid for out of the assets of the Scheme in regard to insurance cover provided to either the officers of Pendal Fund Services Limited or the auditor of the Scheme. So long as the officers of Pendal Fund Services Limited act in accordance with the Scheme's Constitution and the law, the officers remain indemnified out of the assets of the Scheme against losses incurred while acting on behalf of the Scheme. The auditor of the Scheme is in no way indemnified out of the assets of the Scheme.

## Directors' report (continued)

### Lead auditor's independence declaration

A copy of the lead auditor's independence declaration as required under section 307C of the *Corporations Act 2001* is set out on page 5.

This report is made in accordance with a resolution of the directors.

Director

Sydney  
6 March 2025

# Lead Auditor's Independence Declaration under Section 307C of the Corporations Act 2001

To the Directors of Pental Fund Services Limited as the Responsible Entity of  
Pental Pure Alpha Fixed Interest Fund

I declare that, to the best of my knowledge and belief, in relation to the audit of Pental Pure Alpha Fixed Interest Fund for the period ended 12 December 2024 there have been:

- i. no contraventions of the auditor independence requirements as set out in the *Corporations Act 2001* in relation to the audit; and
- ii. no contraventions of any applicable code of professional conduct in relation to the audit.

## **1 General information**

These financial statements cover Pendal Pure Alpha Fixed Income Fund (the Scheme) as an individual entity. The Scheme was a registered managed investment scheme under the *Corporations Act 2001*. The Scheme was constituted on 22 November 2012. The Scheme was wound up on 12 December 2024. The Scheme was domiciled in Australia.

The Responsible Entity of the Scheme is Pendal Fund Services Limited. The Responsible Entity's registered office is Level 18, 123 Pitt Street, Sydney, NSW 2000.

The financial statements were authorised for issue by the directors of the Responsible Entity on 6 March 2025. The directors of the Responsible Entity have the power to amend and reissue the financial statements.

## **2 Summary of material accounting policies**

The material accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all periods presented, unless otherwise stated.

### **(a) Basis of preparation**

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board (AASB) and the *Corporations Act 2001*. The Scheme is a for-profit entity for the purpose of preparing the financial statements.

The financial statements are prepared on the basis of fair value measurement of assets and liabilities, except where otherwise stated.

The financial statements are prepared on a basis other than going concern as the Scheme was wound up on 12 December 2024. There is no difference in the financial statements that are prepared on a going concern basis and the alternate basis.

The statement of financial position is presented on a liquidity basis. Assets and liabilities are presented in decreasing order of liquidity and do not distinguish between current and non-current.

### *Compliance with International Financial Reporting Standards*

The financial statements also comply with International Financial Reporting Standards and Interpretations issued by the International Accounting Standards Board.

### *Functional and presentation currency*

The financial statements are presented in Australian dollars, which is the Scheme's functional currency.

### *Use of estimates*

Management makes estimates and assumptions that affect the reported amounts in the financial statements. Estimates and associated assumptions are reviewed regularly and are based on historical experience and various other factors, including expectations of future events that are believed to be reasonable under the circumstances. Where applicable to the fair value measurement, the current changing market conditions are assessed and estimated. Actual results may differ from these estimates.

The use of estimates and critical judgements in fair value measurement that can have significant effect on the amounts recognised in the financial statements is described in note 14(d).

### *New standards, amendments and interpretations adopted by the Scheme*

There are no new accounting standards, amendments and interpretations that are effective for the first time for the reporting period beginning 1 July 2024 and have a material impact on the financial statements of the Scheme.

## 2 Summary of material accounting policies (continued)

### (b) Financial instruments

#### (i) Classification

The Scheme classifies its investments based on its business model for managing those financial instruments and their contractual cash flow characteristics. The Scheme's investment portfolio is managed and its performance is evaluated on a fair value basis in accordance with the Scheme's documented investment strategy. The Scheme's policy is to evaluate the information about its investments on a fair value basis together with other related financial information.

Derivatives and unlisted unit trusts are classified as financial assets at fair value through profit or loss.

Derivative contracts that have negative values are presented as financial liabilities at fair value through profit or loss.

#### (ii) Recognition/derecognition

The Scheme recognises its investments on the date it becomes party to the purchase contractual agreement (trade date) and recognises changes in fair value of the financial instruments from this date.

Investments are derecognised on the date the Scheme becomes party to the sale contractual agreement (trade date).

#### (iii) Measurement

At initial recognition, investments are measured at fair value. Transaction costs are expensed in profit or loss as incurred. Subsequently, all investments are measured at fair value without any deduction for estimated future selling costs. Gains and losses arising from changes in the fair value measurement are recognised in profit or loss in the period in which they arise.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Further details of fair value measurement are disclosed in note 14(d).

#### (iv) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the statement of financial position, when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

### (c) Net assets attributable to unitholders

All units of the Scheme were redeemed for effective date 5 December 2024 and the final return of capital was paid on 12 December 2024. The Scheme was effectively wound up on 12 December 2024.

Prior to the termination of the Scheme, units were redeemable at unitholders' option. However, applications and redemptions could be suspended by the Responsible Entity if it was in the best interests of the unitholders.

## **2 Summary of material accounting policies (continued)**

### **(c) Net assets attributable to unitholders (continued)**

Under AASB 132 *Financial instruments: Presentation*, puttable financial instruments are classified as equity where certain strict criteria are met. The Scheme classifies the net assets attributable to unitholders as equity as it satisfies the following criteria:

- the puttable financial instruments entitle the holder to a pro-rata share of net assets in the event of the Scheme's liquidation;
- the puttable financial instruments are in the class of instruments that is subordinate to all other classes of instruments and the class features are identical;
- no contractual obligations to deliver cash or another financial asset, or to exchange financial instruments with another entity under potentially unfavourable conditions to the Scheme, and it is not a contract settled in the Scheme's own equity instrument; and
- the total expected cash flows attributable to the puttable financial instruments over the life are based substantially on the profit or loss.

### **(d) Cash and cash equivalents**

For the purpose of presentation in the statement of cash flows, cash and cash equivalents include cash at bank and other short term and highly liquid financial assets with a maturity period of three months or less from the date of acquisition that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

The carrying amount of cash and cash equivalents is a reasonable approximation of fair value.

### **(e) Margin accounts**

Margin accounts comprise cash held or owed as collateral for derivative transactions. The cash is held by or owed to the broker and is only available to meet margin calls. It is not included as a component of cash and cash equivalents.

The carrying amount of margin accounts is a reasonable approximation of fair value.

### **(f) Receivables**

Receivables include accrued income and receivables for securities sold.

These amounts are recognised initially at fair value and subsequently measured at amortised cost. At each reporting date, the Scheme measures the loss allowance on receivables at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Scheme measures the loss allowance at an amount equal to 12-month expected credit losses. Significant financial difficulties of the counterparty, probability that the counterparty will enter bankruptcy or financial reorganisation, and default in payments are all considered indicators that a loss allowance may be required. If the credit risk increases to the point that it is considered to be credit impaired, interest income will be calculated based on the gross carrying amount adjusted for the loss allowance.

The amount of the impairment loss is recognised in profit or loss within other expenses. When a trade receivable for which an impairment allowance had been recognised becomes uncollectible in a subsequent period, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against other expenses in profit or loss.

The carrying amount of receivables is a reasonable approximation of fair value due to their short term nature.

## **2 Summary of material accounting policies (continued)**

### **(g) Payables**

Payables include accrued expenses, redemption monies owed by the Scheme and payables for securities purchased which are unpaid at the end of the reporting period.

The carrying amount of payables is a reasonable approximation of fair value due to their short term nature.

### **(h) Investment income**

Interest income from financial assets at amortised cost is recognised using the effective interest method and includes interest from cash and cash equivalents.

Distribution income from financial assets at fair value through profit or loss is recognised in profit or loss when the Scheme's right to receive payment is established.

Other changes in fair value for such instruments are recorded in accordance with the accounting policies described in note 2(b).

### **(i) Expenses**

All expenses, including Responsible Entity's fees, are recognised in profit or loss on an accruals basis.

### **(j) Income tax**

The Scheme is not subject to income tax provided the taxable income of the Scheme is attributed to its unitholders each financial year. Unitholders are subject to income tax at their own marginal tax rates on amounts attributable to them.

### **(k) Distributions**

In accordance with the Scheme's Constitution, the Scheme distributes its distributable income and any other amounts as determined by the Responsible Entity.

### **(l) Goods and Services Tax**

The Goods and Services Tax (GST) is incurred on the cost of various services provided to the Scheme by third parties. The Scheme qualifies for Reduced Input Tax Credit (RITC); hence expenses such as Responsible Entity's fees have been recognised in profit or loss net of the amount of GST recoverable from the Australian Taxation Office.

### **(m) Foreign currency translation**

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the date of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translations at year end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when fair value was determined. Translation differences on assets and liabilities carried at fair value are reported in profit or loss on a net basis within net gains/(losses) on financial instruments at fair value through profit or loss.

**Pendal Pure Alpha Fixed Income Fund**  
**Notes to the financial statements**  
For the period from 1 July 2024 to 12 December 2024  
(continued)

### 3 Other expenses

	Period 1 July 2024 to 12 December 2024 \$	Year ended 30 June 2024 \$
Transaction costs	3,419	7,706
Sundry expenses	1	-
<b>Total</b>	<b>3,420</b>	<b>7,706</b>

### 4 Distributions to unitholders

The distributions for the period/year were as follows:

	Period 1 July 2024 to 12 December 2024 \$	Period 1 July 2024 to 12 December 2024 CPU	Year ended 30 June 2024 \$	Year ended 30 June 2024 CPU
Distributions paid - September	430,733	1.140	-	-
Distributions payable - June	-	-	1,005,037	2.685
<b>Total distributions</b>	<b>430,733</b>		<b>1,005,037</b>	

### 5 Net assets attributable to unitholders

Movements in the number of units and net assets attributable to unitholders during the period/year were as follows:

	Period 1 July 2024 to 12 December 2024 Units	Year ended 30 June 2024 Units	Period 1 July 2024 to 12 December 2024 \$	Year ended 30 June 2024 \$
Opening balance	37,431,046	37,873,544	35,995,754	36,307,153
Redemptions	(38,861,247)	(662,467)	(38,002,595)	(642,751)
Units issued upon reinvestment of distributions	1,430,201	219,969	1,379,867	210,862
Distributions to unitholders	-	-	(430,733)	(1,005,037)
Profit/(loss)	-	-	1,057,707	1,125,527
<b>Closing balance</b>	<b>-</b>	<b>37,431,046</b>	<b>-</b>	<b>35,995,754</b>

## 5 Net assets attributable to unitholders (continued)

As stipulated within the Scheme's Constitution, each unit represents a right to an individual unit in the Scheme and does not extend to a right to the underlying assets of the Scheme. There are no separate classes of units and each unit has the same rights attached to it as all other units of the Scheme.

### *Capital risk management*

The Scheme considers its net assets attributable to unitholders as capital. The amount of net assets attributable to unitholders reduced to nil after the payment of the final return of capital to unitholders.

<b>Total</b>	<b>16,530</b>	<b>14,341</b>

Audit fees were paid or payable by the Responsible Entity.

## 12 Related party transactions

### Responsible Entity

The Responsible Entity of Pendal Pure Alpha Fixed Income Fund is Pendal Fund Services Limited (ABN 13 161 249 332), a wholly owned subsidiary of Perpetual Limited (ACN 000 431 827).

The Scheme does not employ personnel in its own right. However, it is required to have an incorporated Responsible Entity to manage the activities of the Scheme and this is considered the key management personnel.

### Key management personnel

#### (a) Directors

The directors of Pendal Fund Services Limited during the period or since the end of the period and up to the date of this report were as follows:

Amanda Apted (appointed 31 August 2023)  
James MacNevin (appointed 1 January 2025)  
Anthony Serhan (appointed 6 December 2019)  
Simone Mosse (appointed 23 January 2023, resigned 31 December 2024)

#### (b) Other key management personnel

There were no other persons with responsibility for planning, directing and controlling the activities of the Scheme, directly or indirectly, during the period or since the end of the period.

### Transactions with key management personnel

Key management personnel services are provided by Pendal Fund Services Limited and included in the Responsible Entity's fees. There is no separate charge for these services. There was no compensation paid directly by the Scheme to any of the key management personnel during the period.

The Scheme has not made, guaranteed or secured, directly or indirectly, any loans to the key management personnel or their related entities at any time during the reporting period.

## 12 Related party transactions (continued)

### Responsible Entity's fees and other transactions

Under the terms of the Scheme's Constitution, the Responsible Entity is entitled to receive management fees. The Scheme incurred management fees (inclusive of GST and net of RITC) of 0.70% per annum for the period from 1 July 2024 to 4 December 2024. The management fees were calculated by reference to the net asset value of the Scheme. Where the Scheme invested into other schemes, the Responsible Entity's fees were calculated after rebating management fees charged in the underlying schemes.

The transactions during the period and amounts payable at the reporting date between the Scheme and the Responsible Entity were as follows:

	Period 1 July 2024 to 12 December 2024 \$	Year ended 30 June 2024 \$
Responsible Entity's fees	85,208	197,968
Responsible Entity's fees payable	-	16,263

## 13 Structured entities

A structured entity is an entity that has been designed so that voting or similar rights are not the dominant factors in deciding control and the relevant activities are directed by means of contractual arrangements.

The Scheme considers all investments in unlisted unit trusts to be structured entities. The Scheme invests in unlisted unit trusts for the purpose of capital appreciation and earning investment income.

The unlisted unit trusts are invested in accordance with the investment strategy by their respective investment managers. The return of the unlisted unit trusts is exposed to the variability of the performance of their investments. The unlisted unit trusts finance their operations by issuing redeemable units which are puttable at the holder's option and entitle the holder to a proportional stake in the respective trusts' net assets and distributions.

The Scheme's exposure to structured entities at fair value is disclosed in the following table:

	Fair value 12 December 2024 \$	30 June 2024 \$
Pendal Stable Cash Plus Fund	-	34,406,833

The fair value of these entities is included in financial assets at fair value through profit or loss in the statement of financial position.

The Scheme's maximum exposure to loss from its interests in the structured entities is equal to the total fair value of its investments in these entities as there are no off balance sheet exposures relating to them. The Scheme's exposure to any risk from the structured entities will cease when these investments are disposed of.

The Scheme does not have current commitments or intentions and contractual obligations to provide financial or other support to the structured entities. There are no loans or advances currently made to these entities.

## **14 Financial risk management**

The Scheme's operating activities expose it to a variety of financial risks: market risk (including currency risk, interest rate risk and price risk), credit risk and liquidity risk.

A risk management framework has been established by the Responsible Entity of the Scheme to monitor the Scheme's compliance with its governing documents and to minimise risks in its investment activities. This framework incorporates a regular assessment process to ensure procedures and controls adequately manage the investment activities. The Scheme is permitted to use derivative products. However, the use of derivatives must be consistent with the investment strategy and restrictions specified in the Scheme's governing documents.

All investment securities present a risk of loss of capital. The maximum loss of capital on investment securities is generally limited to the fair values of those positions. The maximum loss of capital on derivatives is limited to the notional contract values of those positions.

The Scheme's asset managers aim to manage these risks through the use of consistent and carefully considered investment strategy and guidelines specifically tailored for the Scheme's investment objective. Risk management techniques are used in the selection of investments. Asset managers will only purchase securities (including derivatives) which meet the prescribed investment criteria. Risk may also be reduced by diversifying investments across several asset managers, markets, regions or different asset classes and counterparties.

The Scheme uses different methods to measure different types of risks to which it is exposed. These methods include sensitivity analysis in the case of currency risk, interest rate risk and price risk; and credit ratings analysis for credit risk.

### **(a) Market risk**

#### *(i) Currency risk*

Currency risk arises as the fair value or future cash flows of monetary assets and liabilities denominated in foreign currency will fluctuate due to changes in exchange rates. The currency risk relating to non-monetary assets and liabilities is a component of price risk and not currency risk. However, management monitors the exposures on all foreign currency denominated assets and liabilities.

Prior to the termination, the Scheme held foreign currency forward contracts to protect the valuation of financial assets and liabilities against variations in the exchange rates. The Scheme did not designate any derivatives as hedges, and hence these derivative financial instruments were classified at fair value through profit or loss.

The Scheme did not have a significant exposure to currency risk (net of foreign currency exposure arising from derivatives) at the reporting date.

#### *(ii) Interest rate risk*

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Scheme is exposed to cash flow interest rate risk on financial instruments with floating interest rates. Financial instruments with fixed interest rates expose the Scheme to fair value interest rate risk.

### **12 December 2024**

The Scheme did not have any exposure to interest rate risk at the reporting date.

## 14 Financial risk management (continued)

### (a) Market risk (continued)

#### (ii) Interest rate risk (continued)

30 June 2024

The following table summarises the Scheme's exposure to interest rate risk:

	Floating interest rate \$	Fixed interest rate \$	Non-interest bearing \$	Total \$
Financial assets				
Cash and cash equivalents	1,351,692	-	-	1,351,692
Margin accounts	1,327,663	-	-	1,327,663
Cash management trusts	34,406,833	-	-	34,406,833
Derivatives	-	73,306	733,999	807,305
Financial liabilities				
Derivatives	258,902	257,267	385,858	902,027

The table presented in note 14(a)(iv) summarises sensitivity analysis to interest rate risk. This analysis assumes that all other variables, in particular foreign currency exchange rates, remain constant. The Scheme uses modified duration as an indicator of the sensitivity of its investments to the interest rate changes.

#### (iii) Price risk

Price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk).

Prior to the termination, the Scheme was predominantly exposed to interest bearing securities. As a result, the price risk arising from the Scheme's investments was impacted by movements in interest rates and is reflected in note 14(a)(ii).

#### (iv) Sensitivity analysis

The following table summarises the sensitivity of profit and net assets attributable to unitholders to interest rate risk. The reasonably possible movements in the risk variables have been determined based on management's estimates, having regard to a number of factors, including historical levels of changes in interest rates. However, actual movements in the risk variables may be greater or less than anticipated due to a number of factors, including unusual large market movements resulting from changes in the performance of and/or correlation between the performance of the economies, markets and securities in which the Scheme invests. As a result, historic variations in risk variables should not be used to predict future variations in the risk variables.

## 14 Financial risk management (continued)

### (a) Market risk (continued)

#### (iv) Sensitivity analysis (continued)

	Sensitivity rates	Impact on profit/net assets attributable to unitholders	
		12 December 2024	30 June 2024
		\$	\$
Interest rate risk	+1%	-	(694,214)
	-1%	-	694,214

### (b) Credit risk

Credit risk is the risk that a counterparty will be unable to pay amounts when they fall due. The Scheme was exposed to counterparty credit risk on derivative financial instruments, cash and cash equivalents and receivables for securities sold. The maximum exposure to credit risk at the reporting date was the carrying amount of the financial assets. None of these assets were impaired or past due but not impaired.

#### (i) Derivative financial instruments

Prior to the termination, the risk of counterparty default in a derivative transaction was minimised by predominantly using exchange traded derivatives (except for currency hedging, contracts for differences and occasionally other approved over the counter instruments). The exchange traded derivatives were only executed and cleared through approved members of the exchanges. For over the counter derivatives, minimum credit ratings apply for counterparties at the time of entering into a contract and ISDA agreements were put in place with counterparties.

#### (ii) Cash and cash equivalents

Prior to the termination, the exposure to credit risk for cash and cash equivalents was low as all counterparties have a high grade credit rating.

#### (iii) Receivables for securities sold

All transactions in unlisted unit trusts are settled/unitised when unit prices are issued. The risk of default is considered low except when trading in a suspended unlisted unit trust.

### (c) Liquidity risk

Liquidity risk is the risk that the Scheme will not be able to meet its financial obligations as they fall due.

#### 12 December 2024

The Scheme did not have any outstanding financial liabilities after the payment of the final return of capital to unitholders at the reporting date. Prior to the termination, the Scheme was exposed to daily cash redemption of redeemable units and payables which were typically settled within 30 days.

## 14 Financial risk management (continued)

### (c) Liquidity risk (continued)

30 June 2024

The following table summarises the contractual maturities of financial liabilities, including interest payments where applicable:

	Contractual cash flows			
	Carrying amount	less than 6 months	6 - 12 months	more than 12 months
	\$	\$	\$	\$
Non-derivative financial liabilities				
Distributions payable	1,005,037	1,005,037	-	-
Payables	29,426	29,426	-	-
Total	1,034,463	1,034,463	-	-
Derivative financial liabilities				
Futures	41,659	41,659	-	-
Swaps	860,368			
Outflow		176,218	372,664	1,561,111
Inflow		(23,601)	(12,147)	(108,304)
Foreign currency forward contracts	131,722			
Outflow		2,847,868	-	-
Inflow		(2,716,146)	-	-
Total	1,033,749	325,998	360,517	1,452,807

### (d) Fair value measurement

The Scheme classifies fair value measurement of its financial assets and liabilities by level of the following fair value hierarchy:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2); and
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

#### (i) Fair value in an active market (level 1)

The fair value of financial assets and liabilities traded in active markets is based on quoted market prices at the end of the reporting period without any deduction for estimated future selling costs.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

Exchange traded derivatives are valued at the last traded price. For the majority of these financial instruments, information provided by the independent pricing services is relied upon for valuation.

## 14 Financial risk management (continued)

### (d) Fair value measurement (continued)

#### *(ii) Fair value in an inactive or unquoted market (level 2 and level 3)*

The fair value of financial assets and liabilities that are not traded in an active market is determined by using valuation techniques. These include the use of recent arm's length transactions, reference to current fair value of a substantially similar other instrument, discounted cash flow techniques, option pricing models or any other valuation techniques that provide a reliable estimate of prices obtained in actual market transactions.

Valuation models use observable data to the extent practicable. However, areas such as credit risk (both own and counterparty), volatilities and correlations require management to make estimates. Changes in the assumptions for these factors could affect the reported fair value of financial instruments. The output of a model is always an estimate or approximation of a value that cannot be determined with certainty, and valuation techniques employed may not fully reflect all factors relevant to the positions held.

The fair value of derivatives that are not exchange traded is estimated at the amount that would be received or paid to terminate the contract at the end of the reporting period taking into account current market conditions (volatility and appropriate yield curve) and the current creditworthiness of the counterparties.

Investments in unlisted unit trusts are recorded at the unit price as reported by the investment managers of such trusts. The Scheme may make adjustments to the value based on the considerations such as: liquidity of the unlisted unit trust or its underlying investments, the value date of the net asset value provided, or any restrictions on redemptions and the basis of accounting.

The Scheme did not hold any financial instruments with fair value measurements using significant unobservable inputs (level 3) at 12 December 2024 and 30 June 2024.

## 14 Financial risk management (continued)

### (d) Fair value measurement (continued)

#### *Recognised fair value measurements*

#### **12 December 2024**

The Scheme did not have any financial assets and liabilities at the reporting date.

30 June 2024	Level 1 \$	Level 2 \$	Level 3 \$	Total \$
Financial assets at fair value through profit or loss				
Derivatives				
Futures	69,602	-	-	69,602
Swaps	-	737,703	-	737,703
Foreign currency forward contracts	-	15,387	-	15,387
Unlisted unit trusts	-	34,406,833	-	34,406,833
Total	69,602	35,159,923	-	35,229,525
Financial liabilities at fair value through profit or loss				
Derivatives				
Futures	41,659	-	-	41,659
Swaps	-	860,368	-	860,368
Foreign currency forward contracts	-	131,722	-	131,722
Total	41,659	992,090	-	1,033,749

#### *Transfers between levels*

The Scheme's policy is to recognise transfers into and transfers out of the fair value hierarchy levels at the end of the reporting period.

There were no transfers between levels as at 12 December 2024 and 30 June 2024.

## 15 Offsetting financial assets and financial liabilities

Financial assets and liabilities are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The gross and net positions of financial assets and liabilities that have been offset in the statement of financial position are disclosed in the first three columns of the table below:

#### **12 December 2024**

The Scheme did not hold any financial assets or liabilities that were subject to offsetting arrangements at the reporting date.

## 15 Offsetting financial assets and financial liabilities (continued)

30 June 2024

	Effects of offsetting on the statement of financial position			Related amounts not offset	
	Gross amounts \$	Gross amounts setoff \$	Net amounts presented \$	Amounts subject to master netting arrangements \$	Net amount \$
Financial assets					
Margin accounts	1,327,663	-	1,327,663	(122,665)	1,204,998
Derivatives	822,692	-	822,692	(779,362)	43,330
Total	2,150,355	-	2,150,355	(902,027)	1,248,328
Financial liabilities					
Derivatives	1,033,749	-	1,033,749	(902,027)	131,722
Total	1,033,749	-	1,033,749	(902,027)	131,722

### *Master netting arrangement – not currently enforceable*

Agreements with derivative counterparties are based on the ISDA Master Agreements. Under the terms of these arrangements, only where certain credit events occur (such as default), the net position owing/receivable to a single counterparty in the same currency will be taken as owing and all the relevant arrangements terminated. As the Scheme does not presently have a legally enforceable right of set-off, these amounts have not been offset in the statement of financial position, but have been presented separately in this note.

## 16 Derivative financial instruments

A derivative is a financial instrument or other contract which is settled at a future date and whose value changes in response to the change in a specified interest rate, financial instrument price, commodity price, foreign currency exchange rates, index of prices or rates, credit rating, credit index or other variables.

Derivative financial instruments require no initial net investment or an initial net investment that is smaller than would be required for other types of contracts that would be expected to have a similar response to changes in market factors.

Derivative transactions include many different instruments such as foreign currency forward contracts, futures and options. Derivatives are considered to be part of the investment process and the use of derivatives is an essential part of the Scheme's portfolio management. Derivatives are not managed in isolation. Consequently, the use of derivatives is multifaceted and includes:

- hedging to protect an asset or liability of the Scheme against a fluctuation in market values or to reduce volatility;
- a substitution for trading of physical securities; and
- adjusting asset exposures within the parameters set in the investment strategy, and adjusting the duration of fixed interest portfolios or the weighted average maturity of cash portfolios.

While derivatives are used for trading purposes, they are not used to gear (leverage) a portfolio. Gearing a portfolio would occur if the level of exposure to the markets exceeds the underlying value of the Scheme.

## **16 Derivative financial instruments (continued)**

The Scheme held the following derivative financial instruments during the period:

### **(a) Futures**

Futures are contractual obligations to buy or sell financial instruments on a future date at a specified price established in an organised market. The futures contracts are collateralised by cash or marketable securities. Changes in futures contracts' values are usually settled net daily with the exchange.

### **(b) Foreign currency forward contracts**

Foreign currency forward contracts are agreements to receive or deliver a fixed quantity of foreign currency for an agreed upon price on an agreed future date. Foreign currency forward contracts are primarily used to hedge against currency risks of non-Australian dollar denominated securities.

### **(c) Swaps**

Swaps are derivative instruments in which two counterparties agree to exchange one stream of cash flow against another stream.

Interest rate swaps are valued based on the estimated amount that the entity would receive or pay to terminate the swap at the reporting date, taking into account current interest rates and the current creditworthiness of the swap counterparties.

Credit default index swap is a credit derivative used to hedge credit risk or to take a position on a basket or credit entities (index). It is an agreement between two parties whereby one party pays the other a fixed coupon for the specified term of the agreement. The other party makes no payment unless a specified credit event occurs.

### **Risk exposures and fair value measurements**

Information about the Scheme's exposure to financial risks and the methods and assumptions used in determining fair values is provided in note 14. The maximum exposure to credit risk at the end of the reporting period is the carrying amount of the derivative financial instruments.

## **17 Events occurring after the reporting period**

No significant events have occurred since the reporting date which would have an impact on the financial position of the Scheme as at 12 December 2024 or on the results and cash flows of the Scheme for the period ended on that date.

## **18 Contingent assets, liabilities and commitments**

There were no outstanding contingent assets, liabilities or commitments as at 12 December 2024 and 30 June 2024.

## **19 Wind up**

All units of the Scheme were redeemed for effective date 5 December 2024 and the final return of capital was paid on 12 December 2024. The Scheme was effectively wound up on 12 December 2024.

## **Directors' declaration**

In the opinion of the directors of Pendal Fund Services Limited, the Responsible Entity of Pendal Pure Alpha Fixed Income Fund:

- (a) the financial statements and notes, set out on pages 6 to 26, are in accordance with the *Corporations Act 2001*, including:
  - (i) complying with Australian Accounting Standards and the *Corporations Regulations 2001*; and
  - (ii) giving a true and fair view of the Scheme's financial position as at 12 December 2024 and of its performance for the financial period ended on that date;
- (b) note 2(a) confirms that the financial statements comply with International Financial Reporting Standards and Interpretations as issued by the International Accounting Standards Board.

This declaration is made in accordance with a resolution of the directors.

Director

Sydney  
6 March 2025

# Independent Auditor's Report

To the unitholders of Pental Pure Alpha Fixed Income Fund

## Opinion

We have audited the **Financial Report** of Pental Pure Alpha Fixed Income Fund (the Scheme).

In our opinion, the accompanying **Financial Report** of Pental Pure Alpha Fixed Income Fund is in accordance with the *Corporations Act 2001*, including:

- giving a true and fair view of the Scheme's financial position as at 12 December 2024 and of its financial performance and its cash flows for the period 1 July 2024 to 12 December 2024; and
- complying with *Australian Accounting Standard* and the *Corporations Regulations 2001*.

The **Financial Report** comprises:

- Statement of Financial Position as at 12 December 2024;
- Statement of Comprehensive Income for the period ended, Statement of Changes in Equity and Statement of Cash Flows for the period ended on that date;
- Notes including material accounting policies; and
- The Directors' Declaration.

## Basis for opinion

We conducted our audit in accordance with *Australian Auditing Standards*. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the Financial Report* section of our report.

We are independent of the Scheme in accordance with the *Corporations Act 2001* and the relevant ethical requirements of the *Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards)* (the Code). We have fulfilled our other ethical responsibilities in accordance with these requirements.

## Other Information

Other Information is financial and non-financial information in Pental Pure Alpha Fixed Income Fund's annual report which is provided in addition to the Financial Report and the Auditor's Report. The Directors of Pental Fund Services Limited (the Responsible Entity) are responsible for the Other Information.

Our opinion on the Financial Report does not cover the Other Information and, accordingly, we do not express an audit opinion or any form of assurance conclusion thereon.

In connection with our audit of the Financial Report, our responsibility is to read the Other Information. In doing so, we consider whether the Other Information is materially inconsistent with the Financial Report or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

We are required to report if we conclude that there is a material misstatement of this Other Information, and based on the work we have performed on the Other Information that we obtained prior to the date of this Auditor's Report we have nothing to report.

### Emphasis of matter – basis of preparation

We draw attention to Note 2(a) of the Financial report, which describes the basis of preparation. The Financial Report has been prepared on a basis other than going concern. The Financial report is prepared on a basis other than going concern following a resolution to wind up the Scheme made by the Board of Directors of the Responsible Entity on 12 December 2024. Our opinion is not modified in respect of this matter.

### Responsibilities of Directors for the Financial Report

The Directors of Pendal Fund Services Limited (the Responsible Entity) are responsible for:

- preparing the Financial Report in accordance with the *Corporations Act 2001*, including giving a true and fair view of the financial position and performance of Pendal Pure Alpha Fixed Income Fund, and in compliance with *Australian Accounting Standards* and the *Corporations Regulations 2001*;
- implementing necessary internal control to enable the preparation of a Financial Report in accordance with the *Corporations Act 2001*, including giving a true and fair view of the financial position and performance of the Pendal Pure Alpha Fixed Income Fund, and that is free from material misstatement, whether due to fraud or error; and
- assessing the Scheme's ability to continue as a going concern and whether the use of the going concern basis of accounting is appropriate. This includes disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless they either intend to liquidate the Scheme or to cease operations, or have no realistic alternative but to do so.

### Auditor's responsibilities for the audit of the Financial Report

Our objective is:

- to obtain reasonable assurance about whether the Financial Report as a whole is free from material misstatement, whether due to fraud or error; and
- to issue an Auditor's Report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with *Australian Auditing Standards* will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error. They are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this Financial Report.

A further description of our responsibilities for the audit of the Financial Report is located at the *Auditing and Assurance Standards Board* website at: <https://auasb.gov.au/standards-guidance/auditor-s-responsibilities>. This description forms part of our Auditor's Report.
