About the Fund

The Pendal Multi-Asset Target Return Fund (**Fund**) is an actively managed multi-asset class portfolio that invests in Australian and international shares, Australian and international listed property securities, Australian and international fixed interest, cash and alternative investments.

Investment Return Objective

The Fund aims to provide a return (before fees, costs and taxes) of Australian CPI[^] plus 5% per annum over rolling five-year periods. The suggested investment timeframe is 5 years or more.

The Fund benchmark is the Australian Consumer Price Index.

Description of Fund

The Fund is designed for investors who are seeking a return that exceeds inflation, diversification across a broad range of asset classes and are prepared to accept some variability of returns.

The Fund aims to generate its returns by investing in shares, listed property securities, fixed interest and alternative investments, both in Australia and globally. To gain its exposure to these asset classes the Fund may invest in shares, bonds, derivatives, unit trusts, exchange traded funds and listed investment companies/trusts. The Fund will not invest in illiquid assets such as direct property or direct infrastructure.

The Fund's asset allocation is dynamically managed, based on our assessment of market valuations, the market/economic cycle and technical indicators. We also seek to add value and/or reduce risk by employing a range of other strategies such as tactical trades that seek to take advantage of shorter-term market dislocations and relative value strategies that focus on mispricing between similar types of financial assets.

Labour, Environmental, Social and Ethical Considerations

We do take environmental, social (including labour standards) and ethical considerations into account when making investment decisions. Sustainable investment practices are incorporated into the Fund by implementing exclusionary screens.

The Fund will not invest in companies or issuers directly involved in the following business activities:

- tobacco production (including e-cigarettes and inhalers);
- controversial weapons manufacture (including cluster munitions, landmines, biological or chemical weapons, nuclear weapons, depleted uranium weapons, blinding laser weapons, incendiary weapons, non-detectable fragments and white phosphorus weapons); or
- supply of goods or services specifically related to controversial weapons.

The Fund will also not invest in companies or issuers directly involved in the following activities, where such activities account for 10% or more of a company's or issuer's gross revenue:

- the production of alcohol;
- manufacture or provision of gaming facilities;
- manufacture of non-controversial weapons or armaments;
- manufacture or distribution of pornography;
- uranium mining for the purpose of nuclear power generation; and
- extraction of thermal coal and oil sands production.

Exclusionary screens are not applied to government securities, semi-government securities, supranational securities, cash or derivatives. The use of derivatives may result in the Fund having indirect exposure to the excluded companies or issuers.

[^]Australian CPI or Australian Consumer Price Index means the All groups Consumer Price Index (CPI) as published by the Australian Bureau of Statistics (ABS).

The Pendal Multi Asset Target Return Fund has been certified by the Responsible Investment Association Australasia according to the strict operational and disclosure practices required under the Responsible Investment Certification Program. See www.responsibleinvestments.com.au for details.

The Responsible Investment Certification Program does not constitute financial product advice. Neither the Certification Symbol nor RIAA recommends to any person that any financial product is a suitable investment or that returns are guaranteed. Appropriate professional advice should be sought prior to making an investment decision. RIAA does not hold an Australian Financial Services Licence.

All reasonable care has been taken to implement the Fund's exclusionary screens to meet the criteria described above. We draw on internal and supplementary external research, believed to be accurate, to determine whether an investment is subject to the exclusionary screens. However, as the nature and conduct of businesses may change over time and publicly available financial or other information is not always comprehensive or up to date, we do not guarantee that the Fund will meet all of these criteria at all times.

We review investments subject to the exclusionary screens monthly and monitor the Fund's compliance with its investment guidelines (including the exclusionary screens) daily. If we discover an investment no longer meets our criteria, we will divest the holding as soon as we consider appropriate, having regard to the interests of investors (and this will be on a case by case basis).

Further information on the Fund's sustainability approach and exclusionary screens can be found in www.pendalgroup.com/PDS
